

Item Title: New Triplicate Fish Fry Receipts for Take Out Dinners

Description: To assist in more efficient reconciliation between the revenue collected and the dinners served during the fish fries, it is proposed that new triplicate fish fry receipts be introduced for the 2010 Fish Fries. These new fish fry receipts (as shown in the attached file) will allow for the white copy to go to the kitchen, the yellow copy to go to the front desk and the pink copy to go to the customer. At the end of the night, the front desk will then be able to more effectively reconcile the total dinners (both dine-in and take-outs) against the revenue that was collected for the evening.

I agree with the Triplicate fish fry receipts. There should always be a paper trail for whatever goes on at the Kof C. This will be one way we will be able to keep track of the meals going out and get to know how much money we are bringing in. That is important.
